

Siddhartha Suman

Full Stack Web Developer | Bachelor of Science | IIT JAM Qualified

9835324548 India

[✉ siddharthasingh21109572@gmail.com](mailto:siddharthasingh21109572@gmail.com) [📄 Landing Page](#) [in LinkedIn](#) [🐙 Github](#)

Full Stack Web Developer with hands-on experience in maintaining production web applications, integrating content management features, and collaborating in agile development environments.

TECHNICAL SKILLS

Languages: JavaScript, TypeScript, HTML, CSS, Java, C, BASH

Frameworks, Libraries & Databases: Next.js, React, Node.js, Tailwind CSS, PostgreSQL

Tools & Other Technologies: Git, Github, Webpack, Jest, npm

WORK EXPERIENCE

Cosminder Solutions Private Limited

June 2025 - December 2025

Full Stack Web Developer

- Maintained and extended core functionality of the company’s primary website, improving stability, responsiveness, and user experience across desktop and mobile devices
- Developed and integrated a blog management feature, enabling dynamic content creation, editing, and publishing through a structured backend workflow.
- Refactored existing codebase to improve readability, performance, and long-term maintainability.

Grippi.io

November 2024 - April 2025

Full Stack Web Developer Intern

- Assisted in the implementation of AI-driven notification systems for WhatsApp and Slack, automating the delivery of performance anomalies and marketing insights.
- Assisted Integration of third-party APIs from platforms like Meta, Google Ads, and Shopify to aggregate real-time marketing data into a centralized analytics engine.

PROJECTS

Turbo - AI IDE Next.js 16, React 19, Typescript, Tailwind CSS 4, WebContainer API, Convex, Inngest, Vercel AI SDK, C, Sentry, Zustand

- Developed a full-stack cloud IDE with real-time collaborative editing using Next.js 16, React 19, and TypeScript, featuring AI-powered code suggestions via Anthropic Claude API
- Implemented real-time synchronization and background job processing using Convex database and Inngest, enabling seamless multi-user collaboration and non-blocking AI operations
